

## SCHAFFNER type FN2010 (single phase, one stage)

A series of chassis mounting mains filters, designed for general purpose applications, and available in a variety of current rating from 1A to 20A. Fitted with a bleed resistor to discharge residual energy when pins are exposed. Housed in an all metal case, terminations are by 6.35mm (0.25in) fast-on tabs at each end of the body.

**NEW**

- ◆ Chassis mounting mains filters
- ◆ Current ratings from **1A to 20A**
- ◆ Suitable for general purpose filtering
- ◆ Fitted bleed resistor
- ◆ Fast-on tabs terminations

### Specification

Voltage rating .....	250Vac
Line frequency .....	50/60Hz
Max. leakage .....	0.4mA/phase
Hipot test (1 min.)	
LN to E .....	2000Vac
L to N .....	1700Vdc
Capacitance	
Cx .....	0.1µF(X)
Cy .....	4700pF(Y) x 2
Inductance	
L .....	as listed
Resistance	
R .....	1MΩ
Weight .....	as listed
Operating temperature range .....	-25°C to +85°C

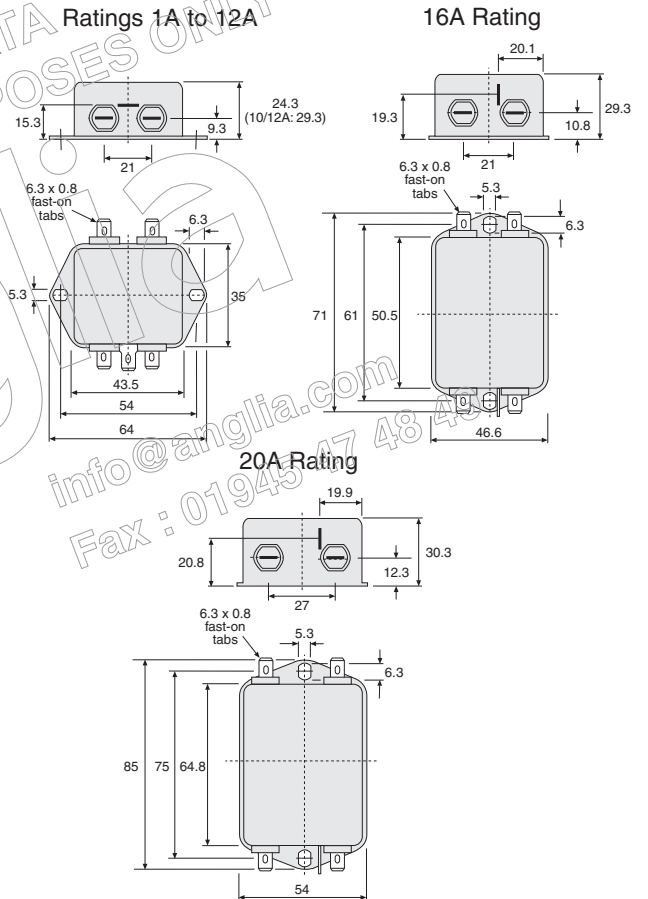

Current Rating (Aac) at 40°C	Inductance (mH)		Weight (g)	Manf. Part No. & Anglia Order Code

20	0.6		210	FN2010-20/06

### ||| SCHÄFFNER FACTORY OPTIONS

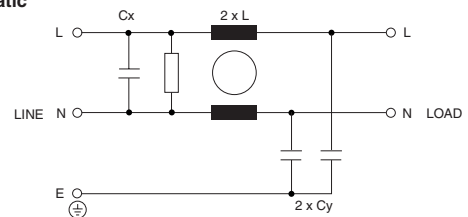

- Without Y capacitors, for medical applications
- Lower capacitance safety types
- Wire leads in place of fast-on tabs

Please contact our Sales Desk for details.

### Dimensions (mm)

### Schematic

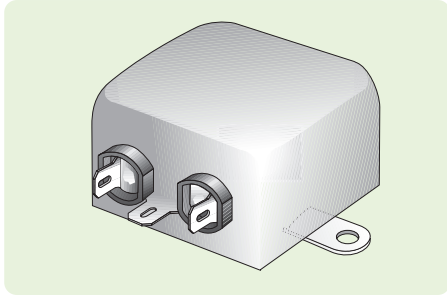

A RANGE OF PUSH-ON CRIMP TERMINALS IS SHOWN IN THE CONNECTORS SECTION

### H&L type SS4 (single phase, one stage)

A series of economical chassis mounting mains filters, designed for general purpose applications, and available in a variety of current ratings from 1A to 20A. Housed in an all metal case, terminations are by 6.35mm (0.25in) fast-on tabs at each end of the body.

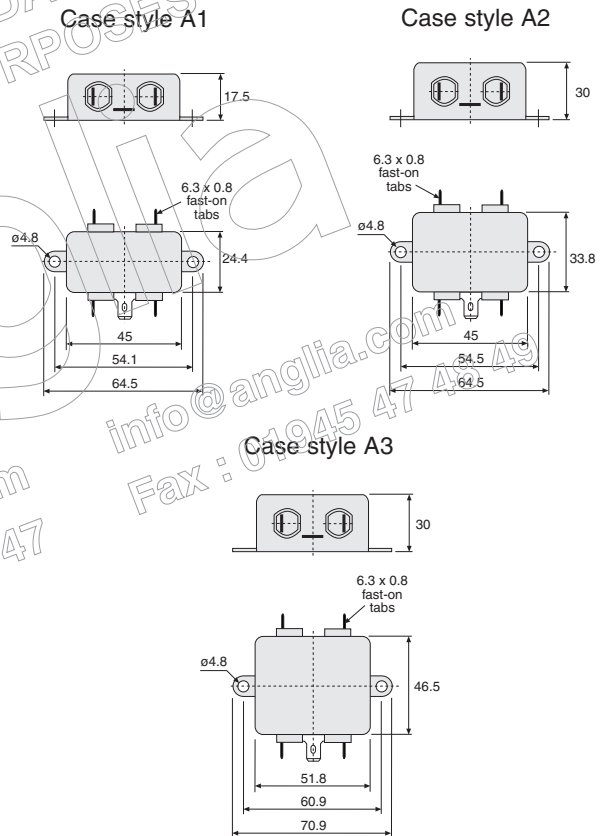

- ◆ Chassis mounting mains filters
- ◆ Current ratings from 1A to 20A
- ◆ Suitable for general purpose filtering
- ◆ Fast-on tab terminations
- ◆ Very cost effective

**Specification**

Voltage rating .....	250Vac
Line frequency .....	50/60Hz
Max. leakage .....	0.2mA/phase at 250Vac 50Hz
Hipot test (1 min.) .....	2250Vdc (LN to E)
	1450Vdc (L to N)
Capacitance (Cx) .....	0.033µF(X)
(Cy) .....	2200pF(Y) x 2
Inductance (L) .....	as listed (x 2)
Operating temperature range .....	-25°C to +85°C

**Dimensions (mm)**

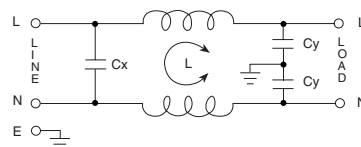

Current Rating (Aac)	Inductance (mH) L	Case Style	Manf. Part No. & Anglia Order Code
1	10	A1	01SS4-1AA1-Q
3	1.2	A1	03SS4-1AA1-Q

10	1.0	A2	10SS4-1AA2-Q
20	0.7	A3	20SS4-1AA3-Q

**FACTORY OPTIONS**

- Fitted bleed resistor, for discharging residual energy when terminals are exposed
- Fitted bleed resistor but without Y capacitors, for medical applications
- Two stage filter & alternative filter configurations
- Screw terminals

Please contact our Sales Desk for details.
